BIG - Bjarke Ingels Group

BIG is a group of architects, designers and thinkers operating within the fields of architecture, urbanism, research and development with offices in Copenhagen and New York City. BIG has created a reputation for completing buildings that are as programmatically and technically innovative as they are cost and resource conscious. In our architectural production, we demonstrate a high sensitivity to the particular demands of site, context and program.

BIG's recently completed projects including the Danish Maritime Museum (2013), Superkilen (2012), the 8 House (2010) in addition to our first project the Copenhagen Harbor Bath (2003), an urban space that transformed the area of Islands Brygge from a rundown harborfront to the recreational and social center of the city.

Current projects under construction include: West 57th, a 750-unit residential building in Manhattan; the Vancouver House tower in Vancouver; the LEGO Brand House in Denmark; the Faroe Islands Education Center; the Shenzhen Energy Mansion in China; and a Wasteto-Energy plant in Copenhagen that will double as a ski slope.

Gople Outdoor

BIG - Bjarke Ingels Group
2020

Starting from the iconic silhouette of the glass diffuser, Gople proposes new sizes and materials to create different ways of lighting spaces.

BIG designs a family of outdoor lights with the freedom and flexibility to suit any space, with an almost nomadic character.

The diffuser, made in lightweight, durable plastic, is the central element of the project which combines with other elements to bring light into spaces, giving rise to different versions of Gople Outdoor.

The different versions interpret a common approach to light that develops close interactions with activities and people.

Enabling new ways of using light in outdoor spaces with the utmost freedom, Gople Outdoor can be reused and reinterpreted in multiple spaces and situations.

Gople Outdoor

Materials:

Rotational moulded polyethylene diffuser (glossy finishing), powder-coated aluminium base, rods in stainless steel

Colours:

White

Dimensions:

Gople diffuser: Ø315 mm x 657mm

Gople Outdoor:

1x21W LED dim (E27)

Transversal Version

Gople outdoor can be moved around easily for different interpretations of spaces, catering to the changing requirements of outdoor living, with infinite possible interpretations of use in a constant stream of new situations.

Suspended Version

Gople Outdoor can be freely positioned or hung anywhere using a climbing rope.

Bollard Version

Gople Outdoor can be mounted on a pole, available in three different heights, for planting directly into the ground irrespective of the power supply, for which purpose a long cable with IP plug is supplied.
